# Volunteer Impact

Manage volunteers with amazing efficiency . . . .  
and engage them like never before.

## Recruit From Your Website

- With one click in the software you can post jobs to the internet where potential volunteers can read about them from a link on your web site
- Save valuable time by gathering volunteer application information online and have it go straight into your software without having to type it in yourself
- Manage with complete control over the acceptance of volunteer applications

## Track Qualifications

- Add an unlimited number of qualifications to track in the volunteer profiles and as minimum criteria for any job

## Add Custom Fields with Ease

- Add custom fields to the volunteer profile to collect whatever information you need (a date, a number, short text, long text, a drop down list or a simple yes/no)

## Create Schedules

- Add a variety of jobs to the schedule (one time, automatically recurring, flexible)
- Find the most suitable volunteers fast with pre-programmed searches based on qualifications, interests and availability
- Know who's in and who's out as volunteers confirm their assigned tasks through MyVolunteerPage.com and confirmations are added automatically to your software
- Spread out your volunteers with an option to close the sign up list in MyVolunteerPage.com as they fill up
- Save scheduling time by auto-scheduling approved and qualified volunteers who sign up for an opportunity (if applicable)

## Generate a Variety of Reports

- Generate hours reports based on the entire agency, a particular job category, an individual job or one volunteer
- Report on the hours, the number of volunteers, and average contribution per volunteer
- Save bar or pie charts for use in your web site or other publications

## Communicate Effectively

- Use email more successfully to communicate with your volunteers, saving time and money
- Isolate groups of volunteers and communicate with just the right ones
- Generate email groups, mailing labels, telephone lists or export data
- Simplify committee communications by giving members the ability to email the group without knowing the other email addresses

## What Other Managers of Volunteers Say

- "We could not imagine going back to the archaic system of Excel sheets ever again." *Hospice Dufferin, Dufferin ON*
- "This software is saving me 1 to 2 hours a day!" *Oklahoma Civic Center Music Hall, Oklahoma, OK*
- "I don't know how I would have managed without it." *World Cycling Championships – Hamilton, ON*
- "I wanted to let you know that the response and feedback from the Anti-Cruelty Society volunteers has been overwhelmingly positive. I compiled and printed my first monthly report using V2 and it was great. The results are exactly what I need and the time to obtain it is a fraction of what it used to take, as I would have volunteers tally their time by hand." *Anti-Cruelty Society, Chicago IL*
- Thank you so much for your support with Banff. We have grown so much this year and I know a large part of it is because of the database. *Banff Volunteer Centre, Banff AB*
- "Very user friendly, and it comes with wonderful customer service!" *Burlington Sound of Music Festival, Burlington, ON*
- I really appreciate this database. *Habitat for Humanity, Port Townsend WA*
- "Volunteer Impact and My Volunteer Page are working perfectly. I really enjoy watching the applications roll in! The time and hassle we've saved in data entry has paid for the software already." –*Foundation Communities, Austin TX*

## What Volunteers Say

- "I think it is great. I don't have to drive downtown and try to find a parking place and then stand in line to sign up for an event. I can pretty much do everything within the comforts of my home." – Ohio
- "Easy to use and well organized" – Ontario
- "All info is readily available" – New York
- "Fast and straightforward to use" – North Carolina

## Do All of This at a Price That Will Pay For Itself

- Agency license: \$995 (multiple licenses are eligible for quantity discount)
- **License fee includes adding custom fields to mimic you current volunteer application, adding initial schedule information, user training and importing volunteer contact information.**
- Annual fee: dependent on the number of volunteers - \$95 for up to 50 volunteers, \$165 for up to 100, \$225 for up to 150, \$275 for up to 200, \$325 for up to 250 - see website for larger numbers (multiple licenses are eligible for quantity discount)
- If you have a sponsor to pay the annual fee, it will be acknowledged to your volunteers on MyVolunteerPage.com and in emails sent to volunteers through Volunteer Impact
